Features

Unleash the Power of Lightning: The S-TEK CAT 7 Ethernet Cable is designed to take your online experience to new heights by offering incredible data transfer rates of up to 10 Gbps. This cable promises seamless performance by ensuring a lag-free, high-bandwidth connection—perfect for gaming, streaming, or working on data-intensive tasks.

Uncompromising Shielding: With a double-shielded SFTP (Shielded Foiled Twisted Pair) design, this cable reduces crosstalk and interference to provide better signal transmission and quality. Strong shielding provides the best defense against electromagnetic interference, which makes it perfect for dependable, high-efficiency networks.

S-TEK CAT 7 Ethernet Cable High Speed Lan Cable

Double Shielding: This CAT 7 cable has double shielding in the form of SFTP (Shielded Foiled Twisted Pair), which guarantees reduced interference and improved protection against crosstalk and electromagnetic interference (EMI).

Features

HIGH SPEED - Cat7 Ethernet cables support to 1000MHz and transmit speeds of up to 10Gbps, connect to LAN/WAN segments and networking gear at maximum speeds.

FLEXIBILITY - Flat Ethernet cables transmit flexibly under the carpet or on the smooth flat. With the cable clip to stick the Ethernet cable to the wall, which will protect the wall from being damaged.

RANGE OF APPLICATION - Cat7 flat ethernet cable perfect for the home server, Xbox, PS4, HDTV, Roku, and switch. Cat7 Ethernet cables are compatible with Cat5, Cat5e, Cat6, and Cat6A Ethernet cables.

S-TEK High Speed cat6 Ethernet Patch Cable LAN Cable

With this premium CAT-6 Ethernet patch cord, enjoy dependable networking and lightning-fast data transfer. This cable is made to perform at its best, guaranteeing quick and reliable connections between devices and lightning-fast data delivery for home and business networking applications.

Features

Durable and Precise: This Ethernet patch cord is made with precision and durability in mind, ensuring outstanding performance with low interference.

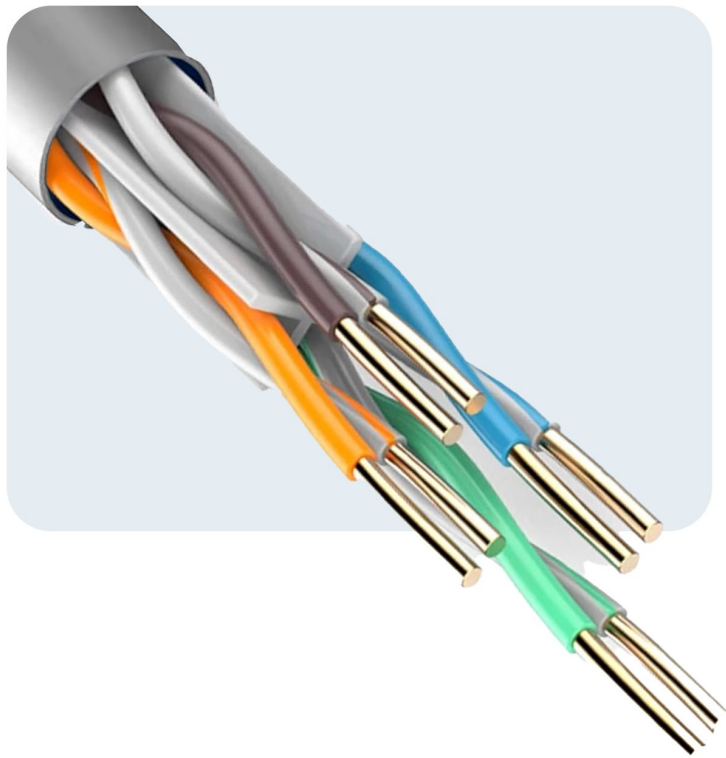

Ideal for Gaming: With no loss of speed or dependability, its high-speed capabilities make it ideal for online gaming, video conferencing, streaming high-definition content, and transferring big files.

Adaptable: In addition to being sophisticated, it also guarantees adaptability and blends in well with a variety of settings, whether you're gaming or setting up a home office.

S-TEK UTP CAT-6 CABLE 305 MTR (PURE COPPER)

With the S-TEK CAT 7 Ethernet Cable, you can enter the future of high-speed connectivity. This technological marvel redefines network performance and offers a remarkably fast and stable connection for a wide range of devices.

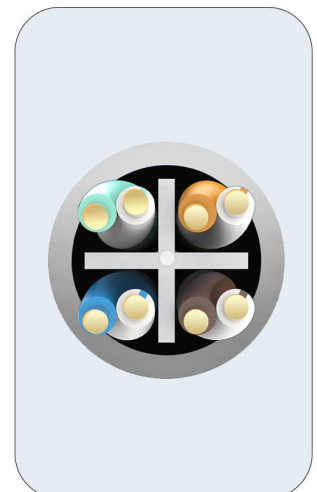

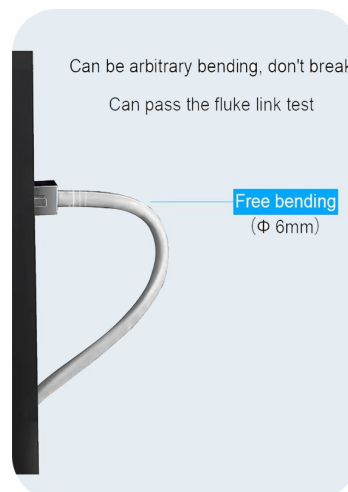

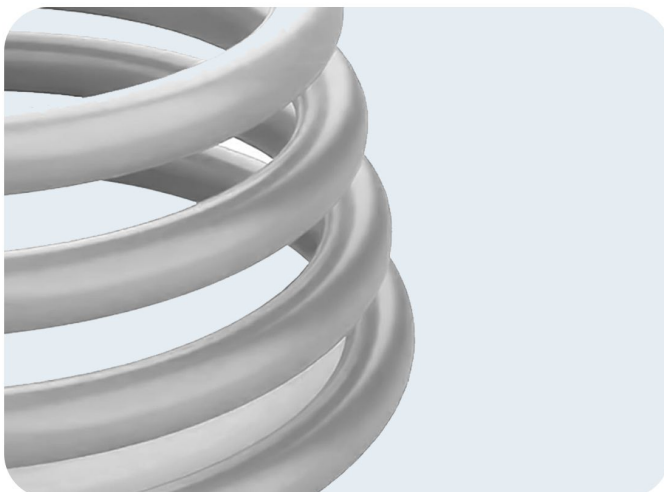

Features

Patch Cable in AWG 24 +100% Pure Copper, 100% tested durable for family or engineering use

Connects a computer to a printer, router, switch box or other network component in a wired Local Area Network (LAN). Share server files, use a network printer, stream audio or videos, link computers through a network switch and more

Support Bandwidth 250MHz & Transmitting data at speeds of up to 1000 Mbps (or 1 Gigabit per second)

S-TEK CAT-6 Network Wall Port RJ-45 Single Face Plate

Your network's organization and connectivity will be improved with the S-TEK CAT-6 Network Wall Port RJ-45 Face Plate. This carefully crafted faceplate offers a neat and effective answer for your networking needs by acting as a streamlined hub for your Ethernet connections.

Features

Suitable for Gigabit Ethernet Connections.

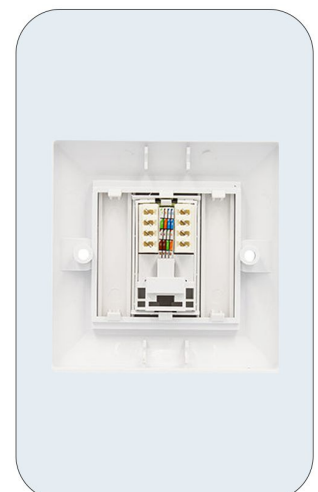

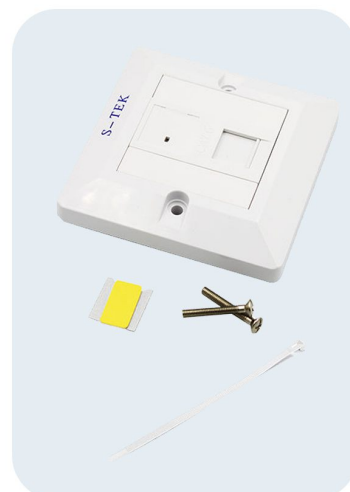

Shallow design requires minimal back-box depth.

High Quality Network Wall Socket for installation at offices designed for RJ-45 Cat-6 Port.

Designed for Offices and Household to organise network Cables and keep network cabling organised.

Made in Taiwan.

Easy-to-Install: It is easy to install, making it simple to configure your network connections. Easily connect your Ethernet connections by screwing the CAT-6 Keystone Jack into the faceplate. Whether for home or business use, the elegant design blends in flawlessly with any setting, and the sturdy construction guarantees a secure fit.

S-TEK CAT-6 Network Wall Port RJ-45 Double Face Plate

Your network's organization and connectivity will be improved with the S-TEK CAT-6 Network Wall Port RJ-45 Face Plate. This carefully crafted faceplate offers a neat and effective answer for your networking needs by acting as a streamlined hub for your Ethernet connections.

S-TEK USB 3.0 to Gigabit Ethernet Adaptor

Introducing your doorway to dependable, stable, and fast network connectivity: the S-TEK USB 3.0 to Gigabit Ethernet Adapter! This adapter, which is made with adaptability and seamless integration in mind, makes it easy to switch from a USB 3.0 to Gigabit Ethernet connection and provides unmatched speeds for your computer requirements.

Features

Hardware Interface	Ethernet, USB
Data Link Protocol	IEEE 802.3, USB, Ethernet, Gigabit Ethernet
Color	Silver
Brand	S-TEK
Operating System	Linux, Windows 10, Chrome OS, Windows 7

Robust Secure Data Transfer: With the 100/1000 RJ45 LAN Network Connector, enjoy blazing-fast data transfer speeds and a robust, secure internet connection. This adapter guarantees a seamless and uninterrupted network experience whether you're doing data-intensive jobs, playing online games, or streaming high-definition films.

Compatible: Being compatible is essential, and this adapter excels in that regard. It works with Linux, Windows, Mac OS, and different switches. It fits in with your current setup easily and provides immediate connectivity without requiring complicated setups or installations.
