S-TEK 10-in-1 Type C Hub with SSD M.2 Enclosure 8TB

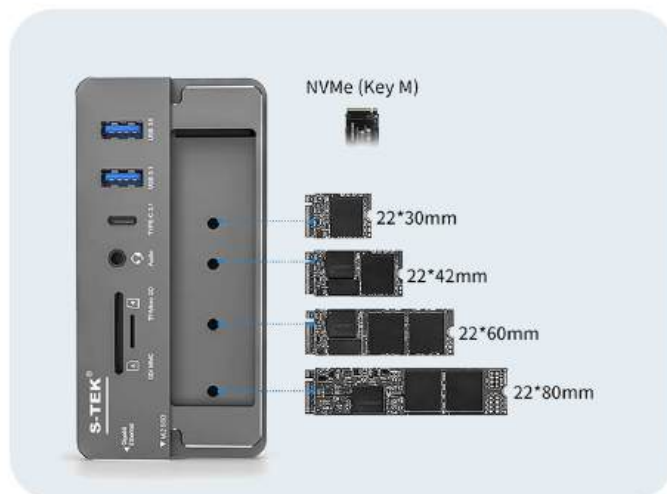

Use our 10-in-1 Type C Hub to maximize the capabilities of your USB-C device. It includes an inbuilt SSD M.2 Enclosure with a massive 8TB storage capacity. This adaptable hub offers a variety of networking options and the ease of high-capacity storage in a svelte and compact package, enabling your computing experience like never before.

Features

This 10-in-1 Type C Hub is a connectivity powerhouse. It has many connections, including USB 3.0, USB 2.0, HDMI, VGA, SD and microSD card slots, Gigabit Ethernet, and a 3.5mm audio jack. It also has a range of other connectors. This hub is perfect for professionals, creative, and multi-taskers because it allows you to easily connect a lot of devices and peripherals at once.

This hub's SSD M.2 enclosure embedded within it has an incredible 8TB of storage space. Store everything in your digital life securely and quickly with access to all of your files, including documents, pictures, and videos. With this hub, you can rest easy knowing you have enough room for everything. Quick Data Transfer: This hub's USB 3.0 ports provide lightning-fast data transfer.

S-TEK M.2(NGFF & NVME) 2 in 1 ENCLOSURE USB C to M2 SSD

With this adaptable and powerful USB-C to M.2 SSD Caddy, you can realize the full potential of your M.2 SSDs. This enclosure delivers a smooth experience for a wide selection of solid-state drives, supporting both NGFF and NVME M.2 SSDs.

Features

Fast Data Transfer: With USB 3.1 connectivity, you can experience lightning-fast data transfer speeds that provide quick access to your data without sacrificing performance.

Flawless Performance: With its remarkable read and write speeds, this external SSD reader is designed to enhance and supplement the capabilities of SSDs such as the Samsung 860 EVO, WD Blue, and WD Green, among others.

Efficient Design: Conveniently designed, this enclosure provides a safe and simple way to install your M.2 SSD, enabling you to convert your solid-state drive into a portable one. The USB-C interface offers consistent connectivity for smooth data transfer and guarantees compatibility with a wide range of devices.

S-TEK Ultra Slim 4-Ports Type C Hub

Super Speed Data Sync allows you to sync data at speeds up to 5 Gbps, enables you to transfer movie in seconds. Up to 10x faster than USB 2.0, does not reduce speed when all 4 ports connected.

Compact design makes it portable and easy to carry, the perfect companion on a business trip, can be easily carried in backpack.

Built in Protection for over-voltage and over-current, this hub keeps your computer and peripherals safe.

Precision designed Aluminium body for heat resistance and incredible durability.

Features

Hardware Interface	USB Type C
Total Usb Ports	4
Data Transfer Rate	5120 Megabytes Per Second
Number of Ports	4
Operating System	Linux

Enclosure Material	Aluminum

Compatible Devices

Desktops, Keyboards, Mouse, Printers, USB Flash Drives

S-TEK 12 in 1 USB C Docking Station

S-TEK 12 in 1 USB C Docking Station is the perfect solution for professionals seeking enhanced connectivity. It is compact, functional, and designed to elevate your work setup. Made with premium materials, S-TEK ensures durability and reliability. Its cutting-edge design provides seamless integration and guarantees improved workflow. Our docking station is easy to use, suitable for professionals of all ages. Available in various sizes and colors. Target Audience: Professionals seeking streamlined connectivity solutions.

Features

Additional Features	Play, Plug
Total Usb Ports	12
Number of Ports	12
Operating System	Windows, Mac, Linux
Hardware Interface	Ethernet, HDMI, USB 2.0, USB 3.0, USB Type C, VGA

Compatible Devices

USB Flash Drives, Mouse, Keyboards, Laptops, Desktops, Printers, Card Reade

S-TEK High Speed cat6 Ethernet Patch Cable LAN Cable

With this premium CAT-6 Ethernet patch cord, enjoy dependable networking and lightning-fast data transfer. This cable is made to perform at its best, guaranteeing quick and reliable connections between devices and lightning-fast data delivery for home and business networking applications.

Features

Unleash the Power of Lightning: The S-TEK CAT 7 Ethernet Cable is designed to take your online experience to new heights by offering incredible data transfer rates of up to 10 Gbps. This cable promises seamless performance by ensuring a lag-free, high-bandwidth connection—perfect for gaming, streaming, or working on data-intensive tasks.

Uncompromising Shielding: With a double-shielded SFTP (Shielded Foiled Twisted Pair) design, this cable reduces crosstalk and interference to provide better signal transmission and quality. Strong shielding provides the best defense against electromagnetic interference, which makes it perfect for dependable, high-efficiency networks.

S-TEK UTP CAT-6 CABLE 305 MTR (PURE COPPER)

With the S-TEK CAT 7 Ethernet Cable, you can enter the future of high-speed connectivity. This technological marvel redefines network performance and offers a remarkably fast and stable connection for a wide range of devices.

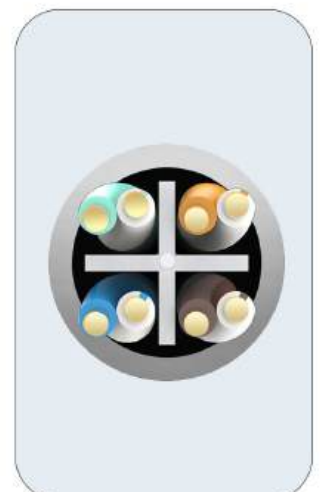

Features

Patch Cable in AWG 24 +100% Pure Copper, 100% tested durable for family or engineering use

Connects a computer to a printer, router, switch box or other network component in a wired Local Area Network (LAN). Share server files, use a network printer, stream audio or videos, link computers through a network switch and more

Support Bandwidth 250MHz & Transmitting data at speeds of up to 1000 Mbps (or 1 Gigabit per second)

S-TEK CAT 7 Ethernet Cable High Speed Lan Cable

Double Shielding: This CAT 7 cable has double shielding in the form of SFTP (Shielded Foiled Twisted Pair), which guarantees reduced interference and improved protection against crosstalk and electromagnetic interference (EMI).

Features

HIGH SPEED - Cat7 Ethernet cables support to 1000MHz and transmit speeds of up to 10Gbps, connect to LAN/WAN segments and networking gear at maximum speeds.

FLEXIBILITY - Flat Ethernet cables transmit flexibly under the carpet or on the smooth flat. With the cable clip to stick the Ethernet cable to the wall, which will protect the wall from being damaged.

RANGE OF APPLICATION - Cat7 flat ethernet cable perfect for the home server, Xbox, PS4, HDTV, Roku, and switch. Cat7 Ethernet cables are compatible with Cat5, Cat5e, Cat6, and Cat6A Ethernet cables.

S-TEK CAT-6 Network Wall Port RJ-45 Single Face Plate

Your network's organization and connectivity will be improved with the S-TEK CAT-6 Network Wall Port RJ-45 Face Plate. This carefully crafted faceplate offers a neat and effective answer for your networking needs by acting as a streamlined hub for your Ethernet connections.

Features

Suitable for Gigabit Ethernet Connections.

Shallow design requires minimal back-box depth.

High Quality Network Wall Socket for installation at offices designed for RJ-45 Cat-6 Port.

Designed for Offices and Household to organise network Cables and keep network cabling organised.

Made in Taiwan.

Easy-to-Install: It is easy to install, making it simple to configure your network connections. Easily connect your Ethernet connections by screwing the CAT-6 Keystone Jack into the faceplate. Whether for home or business use, the elegant design blends in flawlessly with any setting, and the sturdy construction guarantees a secure fit.

S-TEK CAT-6 Network Wall Port RJ-45 Double Face Plate

Your network's organization and connectivity will be improved with the S-TEK CAT-6 Network Wall Port RJ-45 Face Plate. This carefully crafted faceplate offers a neat and effective answer for your networking needs by acting as a streamlined hub for your Ethernet connections.

S-TEK USB 3.0 to Gigabit Ethernet Adaptor

Introducing your doorway to dependable, stable, and fast network connectivity: the S-TEK USB 3.0 to Gigabit Ethernet Adapter! This adapter, which is made with adaptability and seamless integration in mind, makes it easy to switch from a USB 3.0 to Gigabit Ethernet connection and provides unmatched speeds for your computer requirements.

Features

Hardware Interface	Ethernet, USB
Data Link Protocol	IEEE 802.3, USB, Ethernet, Gigabit Ethernet
Color	Silver
Brand	S-TEK
Operating System	Linux, Windows 10, Chrome OS, Windows 7

Robust Secure Data Transfer: With the 100/1000 RJ45 LAN Network Connector, enjoy blazing-fast data transfer speeds and a robust, secure internet connection. This adapter guarantees a seamless and uninterrupted network experience whether you're doing data-intensive jobs, playing online games, or streaming high-definition films.

Compatible: Being compatible is essential, and this adapter excels in that regard. It works with Linux, Windows, Mac OS, and different switches. It fits in with your current setup easily and provides immediate connectivity without requiring complicated setups or installations.

S-TEK 120W Power Delivery GaN Wall Charger

Universal Compatibility & Smart Protection — Works with iPhone, Samsung, Google Pixel, MacBook, and more, with built-in safeguards against overheating, over-voltage, and short circuits

Features

120W GaN Fast Charging — Powered by advanced Gallium Nitride technology for faster, cooler, and more efficient charging in a compact design

6 Ports, 1 Charger — Features 3 USB-C and 3 USB-A ports, replacing multiple chargers and powering up to 6 devices simultaneously

65W USB-C for Laptops — Dedicated high-power USB-C port delivers up to 65W, compatible with MacBooks, laptops, iPads, and more

Fast Charge Every Device — Dual 20W USB-C ports and three 18W USB-A ports ensure rapid charging for smartphones, tablets, and accessories

S-TEK 200W Power Delivery GaN Wall Charger

Universal Compatibility & Smart Protection — Works seamlessly with iPhone, Samsung, Google Pixel, MacBook, Dell, Lenovo, and more, with intelligent safeguards against overheating, over-voltage, and short circuits

Features

200W GaN Fast Charging — Powered by cutting-edge Gallium Nitride technology for ultra-fast, cool-running, and highly efficient charging in a sleek, compact form factor

6 Ports, 1 Charger — Features 4 USB-C and 2 USB-A ports, replacing an entire charging station and powering up to 6 devices simultaneously with ease

100W USB-C for Full Laptop Power — Dedicated 100W USB-C port delivers desktop-level charging speeds for MacBooks, high-performance laptops, iPad Pro, and other demanding devices

20W Fast Charge on Every Remaining Port — Three additional 20W USB-C ports and dual USB-A ports ensure rapid, efficient charging for iPhones, Android smartphones, tablets, and accessories

S-TEK Tool Kits Telephone Set

Your all-in-one solution for expert-caliber network installations and repairs is the S-TEK All-in-One Crimping Tool Set. This set is the ideal partner for connectivity solutions thanks to its adaptable design, which is designed to streamline and optimize your workflow.

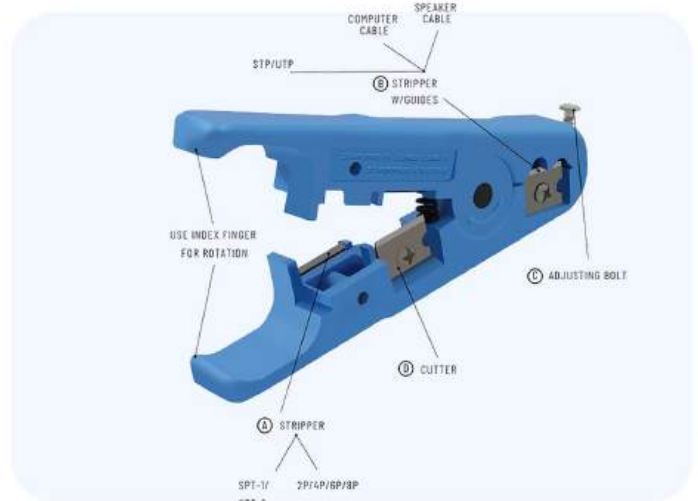

Features

Unmatched Versatility: The S-TEK All-in-One Crimping Tool Set is your go-to tool for cutting, crimping, and stripping 6P/RJ11 & 12 as well as 8P/RJ45 modular plugs. It is made to handle a wide range of tasks. From Ethernet connections to phone lines, this set offers a smooth, comprehensive experience.

Accuracy in Every Task: Our crimping tool's ergonomic design, which was crafted with care and precision, guarantees a comfortable grip and maximum leverage, making it simple to accurately strip, cut, and crimp. For professionals and enthusiasts looking for better performance, this is the ideal tool.

Efficiency Redefined: By streamlining your tasks, this all-in-one set eliminates the need for multiple tools. Streamline your workspace and economize time with the ease of a single, multipurpose instrument that produces remarkable outcomes.

S-TEK 18 Pcs Network Tool Kit
